

Number Bonds to 1000!

I can't remember my
number bonds!

Can you work with me?

Use your number bonds to 100!

Hmmm....

Step 1: You know that $4+6=10$
What do you need to add to 40
to reach the next multiple of
100?

Use your number bonds to 100!

The next multiple
of a hundred is
400!

400 comes after
300!

$$4+6 = 10$$
$$\text{So } 40+60 = 100$$

1000

Step 2:

How many more do we need to add to 400 to reach 1000?

Remember to use your number facts!

$$4+6 = 10$$

$$40 +60 = 100$$

$$400+? = 1000$$

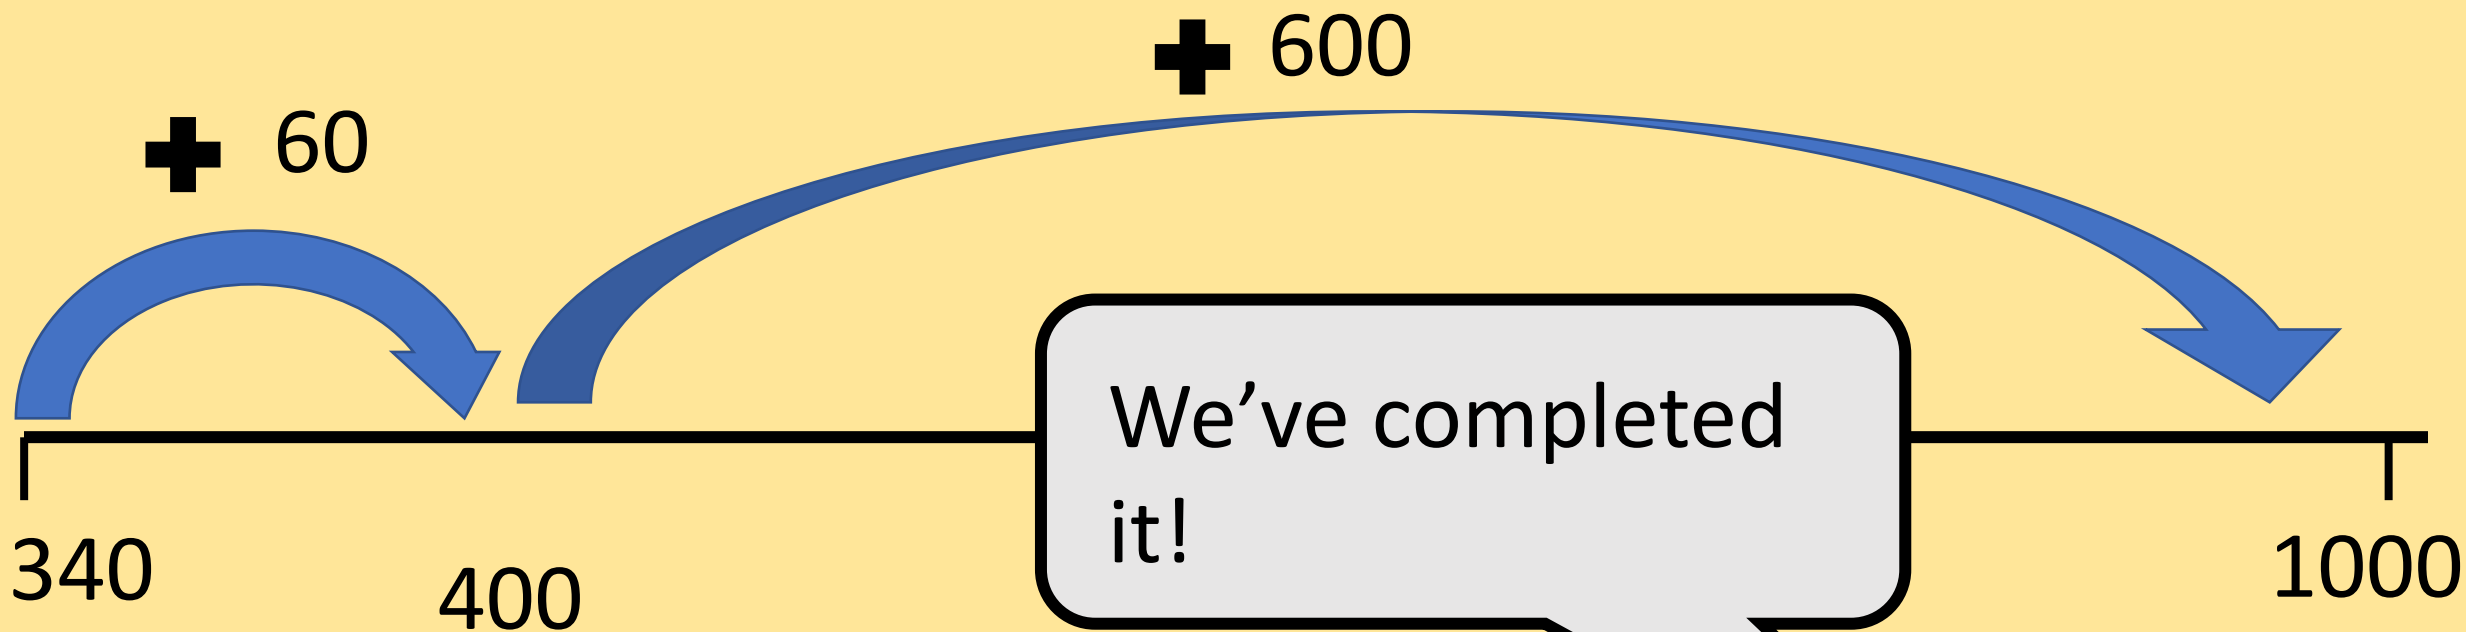

$$4+6 = 10$$

$$40 +60 = 100$$

$$400+600 = 1000$$

Step 3: Add the numbers together!

$$600 + 60 = 660$$

$$340 + 660 = 1000$$

- Step 1:** Go to the next multiple of 100 – What do you need to add?
- Step 2:** How many do you need to add to reach 1000?
- Step 3:** Add the numbers together.

Lets practise!
I'm ready!

Have a go at answering these questions on the next slide.
All you need to do is copy out the question and write the
answer in your home learning books.

Here is a link for online dienes if you would like to use them!
[https://www.coolmath4kids.com/manipulatives/base-ten-
blocks](https://www.coolmath4kids.com/manipulatives/base-ten-blocks)

You can work these out using a number line until you feel
confident to complete these mentally!

You've got this!

Questions

$$1. 560 + ? = 1000$$

$$2. 230 + ? = 1000$$

$$3. 310 + ? = 1000$$

$$4. 190 + ? = 1000$$

$$5. 780 + ? = 1000$$

$$6. 440 + ? = 1000$$

$$7. 880 + ? = 1000$$

$$8. 450 + ? = 1000$$

$$9. 140 + ? = 1000$$

$$10. 760 + ? = 1000$$
