## Year One Maths Planning 1<sup>st</sup> June 2020

### Weekly Focus: Adding to Make 10

	Activity
Monday	<p>Can you remember in Year One when we say “10 is our friend”? This is because 10 is a great number that can help us a lot! A few weeks ago we were remembering our number bonds to 10 and this week we are going to use our number bonds to 10 to help us with our adding.</p> <p>Watch this with your family: <a href="https://www.youtube.com/watch?v=q9h4skGoWJ8">https://www.youtube.com/watch?v=q9h4skGoWJ8</a></p> <p>Task: Make two large blank ten frames (like the ones in the clip)– you will use them for the rest of the week. Collect 20 counters to use in your ten frames – this could be pebbles, gravel, buttons etc.</p>
Tuesday	<p>Use your tens frames and counters to add these numbers together. Remember to add to make 10!</p> <p><b>Task:</b> <math>7 + 5 =</math>     <math>5 + 9 =</math>     <math>8 + 7 =</math>     <math>3 + 9 =</math>     <math>7 + 4 =</math>     (you can do some extra ones if you like!)</p> <p>If you like you could also use this online tens frame to help you! <a href="https://www.coolmath4kids.com/manipulatives/ten-frame">https://www.coolmath4kids.com/manipulatives/ten-frame</a></p>
Wednesday	<p>Ask your family to write 5 addition questions (up to 20) for you and you write 5 addition questions for your family. Can you use your tens frames to help you find the answers – Good Luck Year One! e.g <math>8 + 6 =</math></p>
Thursday	<p>Use your tens frames to play this fun adding game. Have a go at adding any of the numbers. Can you beat the timer?</p> <p>Good Luck Year One!</p> <p><a href="https://coolsciencelab.com/math_magician_addition.html">https://coolsciencelab.com/math_magician_addition.html</a></p>
Friday	<p>Use your tens frames to play this fun dinosaur game. Have a go at adding any of the numbers. Can you beat the timer? <a href="http://flash.topmarks.co.uk/4728">http://flash.topmarks.co.uk/4728</a></p>
