

### Art/DT

Create a self-portrait using natural materials!

Make a sketch of something natural! This can be a plant, an animal or an environment but I would like it to be something you can see in real life, rather than looking on the internet.

### ICT

Can you take some photographs of your local area? You may want to use a phone, camera or an iPad. Remember to only take a person's photo if you have their permission. If you don't have access to a camera device, you can research the photos on the internet.

### PSHE

Take some time to appreciate our area.

1. Lie on your back outdoors and watch the clouds.
2. Make a daisy chain
3. How many animals can you see/hear?

### Geography

Can you create a sketch map to show the route you take from home to our school? Include as many details as you can! You may want to use Google Maps to remind yourself of the route.

<https://www.google.co.uk/maps>

Our school address is:

Our Lady of Lourdes  
RCVA Primary  
Fleming Field  
Shotton Colliery, County  
Durham  
DH6 2JQ

### Activities WB 13.7.2020

Our focus for this week is to Love Where We Live!

This is about celebrating where we come from and making the most of our local area!

Well done for working so hard!

I hope you have a fabulous summer holiday!

### PE

Do some exercise of your choice in your local area! You can do it in your garden if you'd like to.

If you are going out, please make sure you are with an adult or an older sibling and be careful if you need to cross any roads.

If you are cycling please wear a helmet – it is for your safety!

Take a drink with you to stay hydrated and make sure you put lots of sun cream on if the weather is nice.

### History

Find out about the village/town where you live and see what you can discover about its past! If you live near to our school, you are likely to live in a pit village so there will be a lot of mining history to explore.

Some of your research may be asking some older family members about how your local area has changed.

### Science

Make a home for a wild animal. You could use an old cardboard box covered with a plastic carrier bag.
