## Tuesday Maths

## L.O. Multiples

1 Here is part of a hundred square.

| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 |
| 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |

a) Colour the multiples of 3
b) Draw a circle around all the multiples of 2
c) Some numbers have been coloured and circled. What do you notice about these numbers?
2) Multiples of 5 always have a 5 in the number. Is the statement true or false?

Explain your answer.

Rosie and Jack are each thinking of a number.
3
My number is a multiple of 3 and 5

My number is a multiple of 2 and 10

Could they be thinking of the same number?
Explain your answer.
