

Wednesday Maths Challenge

L.O: To divide by 10.

Is Mr McPhail correct?

Mr McPhail is trying to trick Miss Brack into thinking the 10 times tables are double the 5 times table. Is he correct? Explain your answer.

Willy Wonka has some sweets.
He shares them equally between 10 children.
How many sweets could each child have?
Find as many ways as you can.
What do you notice about your answers?
