I'd like you to think about these questions:

- What does 'change' mean? How can change be positive? When can it be negative?
- Think of a time when something in your life changed. What was it? How did it affect you? How did you react?
- Kevin is terribly good at three things: clinging, napping and munching on leaf-buns. What three things are you really good at? What skill do you need to improve?

I'd like you to create a poster of all the things you are good at and how it can help you and others around you.
