

BRAMBLEDDOWN

Dear Resident,

NOTICE OF COMMUNITY PARK CAR PARK CLOSURES 29th – 30th April and 22nd- 24th May Improvements to Existing Car Park and Provision of New Overflow Car Park at Shotton Community Park, Station Road, Shotton Colliery

With all the rain we have had, both the car park works and the construction of the Shotton Youth Centre have been delayed and therefore the completion of both contracts on site are now anticipated to be:

- Shotton Youth Centre - **17 May 2024**
- New Overflow Car Park and Improvements: **24 May 2024**

The resurfacing of the existing car park has been put back to coincide with the completion of works at the New Youth Centre in the Community Park.

Prior to the final re-surfacing works, the existing car park surface needs to be removed ready for resurfacing in May. This is planned to take place next week on **29th & 30th April 2024**. The resurfacing works are planned to be undertaken from **22-24 May, 2024**.

During both periods the car parks will not be available and will be closed for access. Alternative arrangements will need to be made.

The car park will be available for use with the temporary surface until the resurfacing works commence on 22 May.

SUMMARY

The Community Park Car Park will be closed, and all vehicles should be clear from the site on 29 & 30 April and 22, 23 & 24 May. The Parish Council apologise for any inconvenience due to these temporary closure requirements but hope that the longer term benefits are worth the small inconvenience.
